***Tear open the pouch,
remove the steam
eye mask***

Step 2

Unfold the straps

Step 3

***Place the white side
of the mask over
eyes & the elastic
straps around your
ears***

The Steam Eye Mask is an air-activated device that warms up instantly when opened. Single use disposable mask, and delivers a gentle warm steam that is designed to moisten and soothe tired eyes. The mask has straps that allow it to fit securely and comfortably over your eyes making it suitable for everyday use. Using the Ultra-thin self-heating technology, the Steam Eye Mask is extremely thin with the heating insert itself less than a millimeter thick. The Steam Eye Mask can warm to a stable temperature for about 20 minutes while being used.
